STATEMENT OF WORK

Introduction and Purpose of this Document

This RFP will be managed through the Sacramento Regional County Sanitation District (Regional San) on behalf of Regional San and the Sacramento Area Sewer District (SASD), with both Districts operating under the Sacramento Districts Agency (Agency). The Agency provides a common management team along with administrative, financial, planning, support, and IT functions for both Districts. The scope of this RFP is Agency-wide.

The Internal Services Division (ISD) provides administrative, financial, and information technology (IT) support to the Agency. The IT Section within ISD will be leading this RFP and project.

Sacramento Regional County Sanitation District (Regional San)

Regional San owns and operates the regional wastewater conveyance system and the Sacramento Regional Wastewater Treatment Plant located near Elk Grove, California. It serves a population of about 1.4 million residents in the region.

Regional San provides wastewater conveyance and treatment services to residential, industrial and commercial customers throughout unincorporated Sacramento County; the cities of Citrus Heights, Elk Grove, Folsom, Rancho Cordova, Sacramento, and West Sacramento; and the communities of Courtland and Walnut Grove.

The wastewater is collected from customers’ homes and businesses via sewer collection pipes operated by one of four local sewer agencies. These pipes connect to a network of 169 miles of interceptor pipelines, which convey the wastewater to the Sacramento Regional Wastewater Treatment Plant. There, approximately 130 million gallons of wastewater are treated each day and safely discharged to the Sacramento River.

Regional San was formed in 1973, and in 1982, after years of construction, the Sacramento Regional Wastewater Treatment Plant began service. Regional San is governed by a 17-member Board of Directors representing all of the jurisdictions served throughout the region.

More information about Regional San can be found at [http://www.regionalsan.com/](http://www.regionalsan.com/).

Sacramento Area Sewer District (SASD)

The Sacramento Area Sewer District (SASD) is a sewer utility providing service to 1.2 million people in the Sacramento region, including the unincorporated areas of Sacramento County; the cities of Citrus Heights, Rancho Cordova, and Elk Grove; as well as portions of the cities of Folsom and Sacramento. Service is provided for residential, commercial, and industrial customers.

SASD owns and operates thousands of miles of lower lateral and main line pipes and is responsible for the day-to-day operations and maintenance of these sewer pipes. Once collected in the system, sewage flows into the Regional San interceptor system, where it is conveyed to the Sacramento Regional Wastewater Treatment Plant near Elk Grove.

SASD was formed in 1978 and is governed by a 10-member Board of Directors representing the various city and county jurisdictions in the service area.

More information about SASD can be found at [http://www.sacsewer.com/](http://www.sacsewer.com/).
With this Request for Proposal (RFP), Regional San is accepting proposals to conduct a Desktop Virtualization Proof-of-Concept (POC) and/or Pilot for 50 users.

For the sake of brevity, the remainder of this document will use the term Pilot to mean Proof-of-Concept (POC) and/or Pilot.

This document contains a description of the desired products, services, and support needed.

**RFP Response**

Please respond to this RFP with a detailed Pilot plan including success criteria, methodologies, cost estimates, and final report template. In addition, each response must include selected information about your company.

If you have questions, please email them to Tamblynn Stewart at stewartt@sacsewer.com. Your questions and the responses will be distributed to everyone who received a copy of the RFP.

**Deliverables for the Pilot**

The Agency has decided to investigate the feasibility of implementing Virtual Desktop Infrastructure (VDI or Desktop Virtualization) technology. As a first step, a Pilot has been authorized to test VDI technology with a group of 50 users. Deliverables for the Pilot include:

1. Project planning
2. Assessment of existing infrastructure, user profiles, and use cases to properly size and configure the solution for the Pilot
3. All hardware and software required to conduct the Pilot
4. Installation and configuration of all hardware and software required for the Pilot (working with our technical support staff)
5. Evaluation and comparison of Citrix XenDesktop and VMware Horizon
6. Services to assist with defining the success criteria and methodologies for conducting the Pilot
7. Training and knowledge transfer required for our staff to support the Pilot
8. Provide technical support throughout the Pilot
9. Consult in preparing the business case evaluation for a full implementation, if the Pilot succeeds
10. A final report following completion of the Pilot that includes:
   a. Compiled results and findings from the Pilot including evaluation of Citrix vs. VMware
   b. Assessment of the feasibility of a full VDI rollout
   c. Identification of potential integration challenges and architectural limitations that could negatively impact a full VDI rollout
   d. Assessment of whether a near native user experience can be achieved in a full VDI rollout
   e. Identification of operational efficiencies and improvements to help desk support models that can be gained by full VDI rollout
   f. A detailed estimate of the time, effort, and cost for a full VDI rollout
   g. Any other findings or recommendations you deem relevant
Note: If the Pilot does not lead to a full rollout, we are looking to minimize the financial impact by returning hardware on loan or repurposing hardware purchased for the project, to the extent possible.

4.5 Evaluation Process

Our sole purpose in the evaluation process is to determine from among the responses received, which ones are best suited to meet Regional San’s needs. 4.6 Award Criteria

Contract awards will be in accord with, but not limited to, the result of our evaluation of:

Evaluation and Award: The evaluation team will consist of the Issuing Officer and other representatives of the Agency. Proposals will be evaluated as follows:

Proposals will be examined as to whether or not the Proposer understood and responded with all required proposal documents, properly completed, and the acceptability of exceptions taken to proposal terms and conditions.

The award of the contract will be based on an assessment of rating criteria which will represent a capability/quality ranking. While price does matter, we will be seeking the best result at a reasonable cost that meets our needs as we interpret them based upon both the qualitative and quantitative information provided in the submitted proposal.

Written proposals will be examined as to whether or not the Respondents understood and responded in accordance with the following requirements:

1. Price
2. References
3. Solution Approach:
   a. How well the proposed solution meets the functional requirements as defined in the Statement of Work and Solution Questionnaire
   b. Project team, support organization, and experience (resumes are optional and are excluded from the proposal page count limit)
c. Implementation Schedule – the Agency desires to implement the winning solution as quickly as is feasible while allowing for adequate and sufficient evaluation of the solution

d. Experience providing VDI solutions to other organizations with similar environments

Proposals will be scored according to the table below:

<table>
<thead>
<tr>
<th>Rating Criteria</th>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>100</strong></td>
</tr>
</tbody>
</table>

We may ask for a follow up interview (by phone or in person) if we have any questions or need clarifications related to the proposal.

The proposal with the highest score will be selected to conduct the Pilot.

**Protests:** After receipt of Regional San’s “Intent to Award” notice, any Proposer who has questions or concerns should immediately contact the Issuing Officer for discussion. Any Proposer who believes that they have grounds for a protest must submit a written protest on company letterhead within three (3) business days after the Intent to Award letter has been sent out. District is not required to make any deductions or withholdings from the compensation payable to Contractor under the provisions of this agreement; and as an Independent Contractor, Contractor hereby indemnifies and holds District harmless from any and all claims that may be made against District based upon any contention by any third party that an employer-employee relationship exists due to this agreement.

2. It is further understood and agreed by the parties hereto that Contractor in the performance of its obligation hereunder is subject to the control or direction of District as to the designation of tasks to be performed, the results to be accomplished by the services hereunder agreed to be rendered and performed, and not the means, methods, or sequence used by Contractor for accomplishing the results.

3. If, in the performance of this agreement, Contractor employs any third persons, such person shall be entirely and exclusively under the direction, supervision, and control of Contractor. All terms of employment, including hours, wages, working conditions, discipline, hiring, and discharging, or any other terms of employment or requirements of law, shall be determined by Contractor.
4. It is further understood and agreed that as an Independent Contractor and not an employee of District, neither the Contractor nor Contractor’s assigned personnel shall have any entitlement as a District employee, right to act on behalf of District in any capacity whatsoever as agent, nor to bind District to any obligation whatsoever.

These are individually numbered for control purposes, and each separate order/invoicing will require an unique Purchase Order number to be issued to the vendor by the District. If the Purchase Order number does not appear on the Contractor’s invoice, payment may be delayed because it would generally take longer to match the vendor’s invoice with the customer’s ordering document.

4. Invoices shall be rendered monthly in arrears.

5. Invoice discrepancies shall be handled in a professional, courteous, and expeditious manner.

6. In the State of California, government agencies are not allowed to pay excess interest and late charges. Per Government Codes, Section 926.10, interest shall be entitled commencing the 61st day and shall be 6 percent per annum.
